EXPERIENCE

Founder & Lead Engineer — SoftVue Technology — Nov 2022 — Present

Pune, India · Next.js, Node.js, MongoDB, React Native, TypeScript

- Grew SoftVue Technology from a side business (started Nov 2022, alongside my first job) into a full-time company (Jan 2024) with **15+** paying clients across India, the UAE and the US.
- Architected and shipped 8 web and 3 mobile applications, including multi-tenant SaaS platforms, e-commerce systems and enterprise portals.
- Own the full lifecycle: requirements, system design, implementation, deployment, monitoring and post-launch support.
- Lead a team of 2 developers and 1 UI/UX designer — planning sprints, reviewing code and setting engineering standards.

Full Stack Developer — Digital Minds — Jul 2023 — Dec 2023

Remote · Contract · React, Node.js, REST APIs, AWS

- Built REST APIs consumed by **10k+** daily active users.
- Reduced page load times by **40%** through code-splitting and lazy loading.

Full Stack Developer Intern — Maxotag Technology (OPC) Pvt. Ltd. — Nov 2022 — Jun 2023

Pune, India · React, MongoDB, Express, Node.js

- Built an internal admin dashboard used daily by **50+** staff.
- Contributed to the production codebase under senior code review; received the Best Intern Award.

PROJECTS

Multi-vendor E-commerce SaaS — ₹2L+ revenue tracked

Next.js, Node.js, MongoDB, Stripe, AWS S3

Marketplace platform where each vendor manages their own catalogue, inventory and orders under one storefront. Designed the multi-vendor data model and per-vendor order tracking.

Barber Shop Booking Marketplace — 500+ bookings processed

React Native, Expo, Firebase, Node.js

Cross-platform iOS and Android app for discovering barber shops and booking appointments with live availability. Real-time slot availability and booking with Firebase.

College CMS with Role-Based Access — 500+ students served

Next.js, Node.js, MongoDB, RBAC

Content management system for a Pune college covering notices, events, faculty profiles and student information. Role-based access control across departments.

Currently building: ShopGrid, Cloud-Native Microservices Commerce (Java, Spring Boot, Kafka); LedgerX, Double-Entry Payments Ledger (Java, Spring Boot, PostgreSQL); DocuMind, RAG Knowledge Assistant (Python, FastAPI, PostgreSQL).
